

Gain knowledge & plan a Career

...at the Cheema Institute of Para-Medical & Nursing

CHEEMA Institute of Para-Medical and Nursing is ready to take flight at the Cheema Medical complex, Phase IV, Mohali. The institute is affiliated to Vinayak University Salem, Tamil Nadu, for its degree and diploma courses in various streams of nursing and other technical staff training. A tie-up with PACT has made it possible. The courses to be offered are nursing brush-up after a diploma in nursing (six months duration); maternal and child health nursing after BSc Nursing (one year) and paediatric nursing for one year, also after BSc nursing. The other courses being offered are BSc in MLT (three-year duration) after Plus Two, BSc Nursing in lateral entry for a duration of two years after diploma in nursing plus a two-year working experience; bachelor of physiotherapy in MPT after BPT and for a duration of two years; medical lab technology after Plus Two for a duration of one year; X-Ray technology for a duration of six months and operation theatre Assistant after Plus Two for a duration of one year.

PACT School of Business Studies has made a mark in the

field of education by offering quality education at your convenience for, it is distant learning, but with a difference, as it provides maximum practical education. PACT gives an opportunity to students to study in any stream and increase knowledge in any given stream. PACT has its own main centre at Phase V, Mohali. It has helped many students to increase their educational status for better

career prospects. PACT's latest venture in para-medical and nursing starts with a tie-up with the Cheema Medical Centre. Apart from offering these courses, there's an option for Phd in nursing. All these courses are recognised by UGC and abroad. Many candidates who want to go abroad are at an advantage, for the medical and para-medical qualifications can help them secure good jobs

abroad.

Cheema Medical Centre in itself has earned a name for its excellent services and facilities. The centre has an ISO 9001-2000 certification to prove its excellence in the medical line. Run by the Cheema family of doctors — Dr BS Cheema and Dr Jatinder Cheema, their sons, Dr AS Cheema and Dr JS Cheema and their wives Dr Lakhvir Kaur and Dr Navjot, who runs Aman Scan, Phase I, Mohali. The centre has the latest facilities for deliveries, operations, nursery with incubator and photo-therapy, immunization, ECG, X-Ray, ultrasound guided procedures, physiotherapy, spirometer, cardiac monitor with defibrillator, ventilator, pulse oximeter, TMT etc.

Apart from emergency and ambulance availability for 24 hours, it has its own tertiary centre — a 60-bed multi-speciality centre. Renowned doctors who have excelled in their fields are consultants with the hospital. The specializations which are covered at the centre are general medicine, ortho/spine, paediatrics, gynaecology, psychiatry, eye, ear,

nose and throat, skin, radiology, arthroscopy, neurosurgery, urology, gastroenterology, endoscopy, neurology, plastic surgery, rheumatology, oncology and dental surgery.

Says Dr AS Cheema, "We started in '88, and have come a long way. Now, we have tied up with PACT to provide opportunity to our students to not only gain academic qualification, but also get practical in-house training. We did extensive research and found out about the university, courses etc., and after being thoroughly satisfied from all quarters, we have finalized this tie-up. Gautam Singh of PACT says, "We are only trying to reach out to the masses and make these educational facilities available all over the region. Cheema will remain an exclusive centre for nursing and para-medical institute for the Mohali area. This happens to be our first tie-up in this field. For the convenience and awareness of students we plan to go in for an extensive seminars and conferences in the near future."
